HENNANI AYOUB BRAHIM

Junior DevOps Engineer | Software Engineer | Full-Stack Developer

ayoubbrahim.hennanii@gmail.com | 0614778200 | ayoub-hen | Ay-hen | Portfolio

Summary

Junior Software Engineer specializing in Java/Spring Boot, REST API development, and database management. Skilled in Docker, Maven, and Git, with a strong interest in DevOps practices and CI/CD automation.

Technical Skills

DevOps & Tools: Git/GitHub, Git Flow, Jenkins, Docker, Linux, Maven, CI/CD

Backend & APIs: Spring Boot, Spring Security, Spring Data JPA, JWT, REST APIs, WebSocket/STOMP, Apache Kafka, Node.js, Django

Databases: PostgreSQL, MongoDB, MySQL, SQL

Programming Languages: Java, Python, TypeScript, PHP, C, R

Frontend: Angular, React.js, HTML, CSS, JavaScript

Professional Experience & Projects

Full-Stack Developer | Nexus E-commerce Platform *Freelance*

Description: Development of an e-commerce platform for managing products, inventory, orders, and customers.

- Developed e-commerce modules (products, inventory, orders, and customers) and REST APIs using Spring Boot.
- Implemented JWT authentication and role-based access control with Spring Security.
- Built an admin dashboard with management and analytics features; maintained code on GitHub.

Technologies: Angular 22, Spring Boot, Spring Security, JWT, REST APIs, Git/GitHub *GitHub*

Full-Stack Developer | Final-Year Internship Business IT Solutions, Casablanca *Feb. – Aug. 2025*

Description: Designed and developed a web and mobile banking solution for managing accounts and financial transactions.

- Developed banking transaction features and 15+ documented REST APIs consumed by web (Angular) and mobile (Kotlin/Android) applications.
- Implemented stateless JWT authentication and secured application access using Spring Security.
- Designed and managed the PostgreSQL database using JPA.

Technologies: Java, Spring Boot, Spring Security, JPA, PostgreSQL, Angular, Kotlin, Android, JWT *GitHub*

Full-Stack Developer | Internship 2MOROCCO, Rabat *Apr. – Jun. 2024*

Description: Developed Lenscape, a platform connecting clients with professional photographers through an online booking system and a dedicated photographer workspace.

- Developed the booking engine, including availability, pricing, and business rules.
- Built a photographer workspace for managing bookings, calendars, and services.
- Implemented real-time messaging (WebSocket/STOMP) and event-driven notifications (Kafka).
- Secured REST APIs using Spring Security, JWT, and OTP authentication.

Technologies: Java 17, Spring Boot, Spring Security, Angular, MongoDB, JWT, Apache Kafka, WebSocket/STOMP, Docker. *GitHub*

Full-Stack Developer | Expium *Personal Project*

Description: Developed a social networking platform for content sharing and real-time communication.

- Implemented real-time messaging and notifications using WebSocket.
- Secured APIs and implemented JWT-based authentication.

Technologies: Spring Boot, React.js, MongoDB, WebSocket, JWT *GitHub*

Education

Faculty of Science and Technology of Mohammedia (FSTM) *2022 – 2025*

Engineering Degree in Mathematical Engineering and Computer Science *Morocco, Mohammedia*

Multidisciplinary Faculty of Ouarzazate (FPO) *2019 – 2022*

Bachelor's Degree in Mathematical Sciences and Computer Science *Morocco, Ouarzazate*

Multidisciplinary Faculty of Ouarzazate (FPO) *2019 – 2021*

DEUG in Mathematical Sciences and Computer Science *Morocco, Ouarzazate*
